

2025 – 2026 Ice Grip Program

Managing Inclement Weather Slips & Falls

Slips and falls on icy surfaces due to inclement weather are the number one cause of winter-time injuries and rising workers' compensation costs. When it comes to slip and fall prevention, there can be no shortcuts, the only way to reduce the potential of accidents is through comprehensive slip and fall prevention programs. A great first step any organization should consider is to provide employees with additional traction, which can be provided by taking advantage of our partnership with Winter Walking.

FutureComp has been working with Winter Walking for many years, being able to offer discounted rates for the varying industries we work with to reduce accident frequency. Winter Walking is continuously investigating new technologies and improvements, some of which is based off the feedback from you, the clients.

Winter Walking is now offering two of their most popular models, but in a **ONE SIZE FITS ALL** option;

ICE-BREAKER (Model JD125)

- Comparable to Spare Spike Model, but **one size fits all** shoes and boots
- Front and back adjustable straps
- Beveled edges for maximum comfort
- Designed for easy on/off and lightweight
- High-vis colors for easy compliance checks
- Perfect solution to prevent slips and falls in icy parking lots
- 18 permanent “high-profile” tungsten carbide studs safe for indoor use
- Covers more than twice the surface of traditional single strap, midsole cleats

ICE-BREAKER TRANSITIONAL TRACTION (Model JD110)

- Comparable to Low Pro Model, but **one size fits all** shoes and boots
- Front and back adjustable straps
- Beveled edges for maximum comfort
- Designed for easy on/off and lightweight
- High-vis colors for easy compliance checks
- Perfect solution to prevent slips and falls in icy parking lots
- 18 permanent “low-profile” tungsten carbide studs safe for indoor use
- Covers more than twice the surface of traditional single strap, midsole cleats

Normally, these cost \$35.45 per pair, however through our partnership, clients can purchase for only \$26.45 per pair!

Note that Shipping is Calculated Separately

For Ordering Instructions and a Complete List of Models Available at Discounted Prices, see next page

Bill Coyne, SR. VP from Jordan David Company, is assigned to the FutureComp Program and will be the main contact at the manufacturer. **All ordering should be done via the Ice Grip Program dedicated website** located at - <https://www.zeroslips.com/usi>, with link to order form located at the bottom of the page.

Shipments can take from 48 hrs. to 1 week for most orders; and will be sent directly to your facility with the invoice to be paid within 30 days.

If you have any questions or are interested in other products that Winter Walking provides, please feel free to contact Bill directly at Winter Walking - 1-888-667-5477 or email at Bill@WinterWalking.com or Rob Bolduc, Loss Control Consultant with FutureComp that is overseeing the Ice Grip Program - Robert.Bolduc@usi.com
